Kids in Parks is a program of the

Birds of Hagg Lake

● **Great Blue Heron**
Ardea herodias
squawk "roh-roh-roh" or a series of deep "frawnk"

Whether perching in the trees, walking through the meadow, flying overhead, or singing from the shrubs, many types of birds specialize for life on the mountain.

Use this brochure to see how many birds you can find on your hike today.

What kind of bird is that?

When identifying birds, start by observing their location and behavior. Is the bird up high, making noise? Or is it on the ground, digging in leaves?

Next, observe its appearance. Is it big like a crow, or small like a sparrow? Does it have pointy wings, or a long tail? What color is it? And what sort of markings does it have?

These things can help you identify the birds you see!

Check off the birds you find on your hike today!

Osprey
Pandion haliaetus
high-pitched screech, sometimes strung together in a series

American Bald Eagle
Haliaeetus leucocephalus
high-pitched whistling or piping notes

Varied Thrush
Ixoreus naevius
short, buzzy whistles

Steller's Jay
Cyanocitta stelleri
repeated "shook shook shook"

Downy Woodpecker
Dryobates pubescens
high pitched "pik, pik, pik"

Western Tanager
Piranga ludoviciana
hoarse "cheerup, cheerily"

Black-capped Chickadee
Poecile atricapillus
"chicka-dee-dee-dee"

Mallard
Anas platyrhynchos
series of quacks

Double-crested Cormorant
Nannopterum auritum
deep, guttural croaks

Blue Winged Teal
Spatula discors
series of high pitch whistles

American Coot
Fulica americana
clucks "krrrp" or "pri-KI"

American Crow
Corvus brachyrhynchos
"caw, caw, caw"
